## PROFESSIONAL SUMMARY

Results-driven Software Engineer with experience in developing and deploying scalable software solutions for high-traffic applications. Skilled in leading cross-functional teams, with a proven track record of improving system performance by 40% and reducing response times by 23%. Adept at ensuring zero-critical-bug releases and delivering high-quality software solutions. Extensive experience working in remote and virtual team environments, contributing to efficient project alignment and team productivity. Eager to leverage technical expertise and leadership abilities to drive impactful software solutions in a forward-thinking engineering role.

## SKILLS

React.js, JavaScript, HTML, GitHub, Software Development, Code Debugging, Data Security, Cross-Functional Leadership, Application Deployment, Network Troubleshooting, User-Centered Design, Project Planning, UI/UX, Virtual Collaboration, Process Optimization, Requirements Gathering, Code Documentation.

## EXPERIENCE

### Member

**Rewriting the Code | United States (Remote) | Jul 2024 – Present**

#### *Roles And Responsibilities:*

- Enhanced project turnaround by implementing a standardized coding framework, resulting in consistent code quality across all remote teams.
- Facilitated collaboration with cross-functional teams in a virtual environment, enabling effective communication and seamless project integration.
- Mentored a cohort of junior developers, providing structured feedback and professional guidance that improved team retention and development.
- Established remote code review practices that decreased review time by 25%, streamlining the overall development process.
- Organized and led virtual workshops on diversity and inclusion, cultivating a stronger, more inclusive remote workplace culture.

### Frontend UI/UX Designer

**Freelance | Nairobi, Kenya | Nov 2023 – Present**

#### *Roles And Responsibilities:*

- Designed user interfaces for web and mobile applications, improving user engagement and streamlining user experience across platforms.
- Conducted user research and usability testing sessions, incorporating findings to enhance interface accessibility and navigation ease.
- Collaborated with developers and project managers to ensure seamless integration of design elements, reducing project timelines by an average of 20%.
- Optimized design workflows by implementing prototyping tools, leading to a 30% reduction in iteration time and faster client feedback loops.
- Created and maintained design systems for clients, ensuring brand consistency across all digital assets and reducing rework by 25%.

### Intern

**Pasaden Concept Limited | Nairobi, Kenya | Feb 2023 – Nov 2023**

#### *Roles And Responsibilities:*

- Assisted in documentation and code reviews, ensuring consistency and accuracy, which enhanced project documentation quality by 30%.
- Collaborated with development teams to support ongoing software projects, providing essential assistance in meeting project milestones and accelerating timelines.

- Supported technical troubleshooting by identifying and resolving basic hardware and software issues, reducing downtime for end-users by 15%.
- Configured computers, peripherals, and software setups for staff, ensuring that systems were optimized and ready for daily use.
- Engaged in virtual team meetings to stay updated on project goals, contributing to a 25% increase in team cohesion and project alignment.

## **Attachee**

**Uwezo Fund Oversight Board | Nairobi, Kenya | Sep 2022 – Nov 2022**

### ***Roles And Responsibilities:***

- Assisted in safeguarding loan data by performing regular backups from internal systems to secure external storage, supporting data integrity and improving data accessibility by 23%.
- Conducted a detailed inventory of ICT office equipment, improving asset tracking efficiency by 30% and supporting better resource allocation.
- Supported virtual communication needs by setting up teleconferencing equipment for remote meetings, enabling an increase in team participation across locations.
- Prepared internal memos with suggestions for operational improvements, providing insights to support ongoing development efforts within the fund.
- Installed and configured Windows 10 on office computers under supervision, enhancing system usability and ensuring device readiness for staff.
- Aided in network troubleshooting by identifying and addressing minor connectivity issues, helping maintain stable connections for office systems.
- Assisted with diagnosing and resolving basic software and hardware issues, contributing to reduced technical disruptions for daily operations.

## **EDUCATION**

**Diploma In Business And Information Technology | KCA University | 2022**

## **CERTIFICATION**

- ❖ **UI/UX Design Certificate (Udemy)**
- ❖ **ALX Software Engineering Certificate (Front-End)**

## **TOOLS**

React.js, Next.js, Tailwind CSS, GitHub, Typescript, Netlify, Figma.

## **LANGUAGES**

English  
Swahili
