Dapo Momodu

I can design a product or digital experience with just a problem statement by applying design thinking to land the most viable product.

I design intuitive applications for various clients. My wealth of experience in UX Design and website development would make me a great addition to your team.

EXPERIENCE

Toptal — *UI/UX Designer*

OCT 2022 - CONTRACTOR

Working with agile teams and collaborating closely with developers, copywriters and UX designers.

Creating, improving and using wireframes, prototypes, style guides, and user flows, and effectively communicating interaction ideas using any of these methods.

Presenting and defending design decisions. All design decisions are based on the overall design roadmap and applying design thinking and fundamental principles (i.e. color theory, visual weight, etc.)

NotchHR Formerly MyXalary — *Lead UI/UX Designer*

FEB 2021 - PRESENT

Serving as the primary point of contact for all UX-related activities associated with my work stream.

Leading communication and collaboration between product owners and development team stakeholders to ensure alignment of UX deliverables.

Collaborating and building consensus with key stakeholders; always representing the user's point of view, striking a balance between the ideal, and the realities of feasibility and delivery.

Creativelopers — *UI/UX Developer*

APRIL 2019

Leading the creation of design sketches, wireframes, and interactive prototypes to inform feature development.

Ensuring that digital principles, standards, styles, design patterns, and renderings are followed and represented correctly.

Seeing the big picture and making good design decisions that may require trade-offs between business goals and design standards.

MindMachine Unlimited — *Web Developer / Tutor*

AUGUST 2018

Teaching students web development using HTML5, CSS3, JavaScript, PHP MySQL and PHPMyAdmin to build lightweight applications.

Teaching how to build a custom WordPress website using WPBakery and Elementor.

Using frameworks like Bootstrap for faster development processes.

Gabson Engineering — *Web Developer / IT Support*

JAN 2015

Building and maintaining web applications like daily reporting apps, websites, document repos and e-commerce web apps.

Managing the company server and emails using IMAP protocols in MS Outlook for easy delivery on staff's personal computers and mobile phones.

Administrating, reporting and posting social media content from graphics designed in Adobe Suite.

Using MSWORD and Powerpoint to deliver content to stakeholders in rich text and graphical formats.

Creating custom PDF documents and designing company business brochures, cards and stationeries.
