

Imran Šehić

Web Developer

My name is Imran and I am an enthusiast software developer wise in programming technologies regarding the languages of JavaScript and TypeScript. My core knowledge lies down in frontend web development where I achieve success using technologies such as React.js, Next.js and Vue.js while being capable with testing frameworks such as Cypress for E2E testing. My below listed achievements should be a reason to make me a part of your company which I would really appreciate to. Kind regards.

WORK EXPERIENCE

React/Next.js Developer

A Place For Mom

12/2020 - 10/2023

Remote

A Place For Mom is a company for senior living assistance with several housing options in the US and Canada with more than 300.000 customers a year.

Achievements/Tasks

- Slashed application bundle size by over 50% overall and sped up application loading time by 30%.
- Increased company's revenue by 30% in 2022 by optimizing application for search engines (SEO) and making the application more reachable by end users.
- Made the application more discoverable and better rated by google search engines by optimizing application's core web vitals (CLS, LCP, FCP, ...).
- Documented code appropriately and made the application's code more readable to other developers ensuring the continuation of the writing of quality code.

React/Go Developer

Samurai Seller

01/2024 - 11/2024

Remote

Samurai Seller is one of the leading providers in PPC ads for Amazon sellers across the globe with 100.000 user monthly.

Achievements/Tasks

- Successfully transitioned big part of Vue.js codebase into React as part of a redesign and refactoring process.
- Adjusted poorly performing mobile version of the web application by redesigning the existing mobile layout and optimizing lighthouse score for mobile.
- Implemented redesigned version of existing filters as the most important feature on all the listing pages for different data analytics and metrics and successfully implemented feature for saving preset settings from both frontend and backend side.
