Profile

I've been taking a break and doing some travelling over the latter half of last year and I'm on the lookout for a new project now.

In my most recent role as a **VueJS** Developer at **diva-e**, my main role was to change the existing front end of the WIKA web app to VueJS. WIKA is the world's leading manufacturer of pressure and temperature measuring technology, headquartered in Klingenberg am Main, Germany.

Front End/UI Developer with extensive experience regarding the visual apprehension of user interfaces (**HTML/CSS/JS**). However, I also have proven experience developing the front end functionality for **React, React Native and VueJS** Applications.

Skills

React, React Native, Vue.js, AngularJS, NestJS, Redux, JavaScript, Typescript, CSS 3, HTML5, PHP, Python, Jest.js, Next.JS, Flexbox, CSS Grid, Bootstrap, Material-UI, Storybook, Node.js, GraphQL, AWS, Styled Components, D3.js, Adobe Experience Manager, Drupal, Figma, Atomic Design, Responsive Web Design, Sketch, Adobe Creative Cloud, Jenkins, Visual Studio Code, Adobe Commerce, Cypress, Kubernetes, Docker, Grails, Keycloak, Postman, Swagger, Azure DevOps, Oracle QSL Developer, Linux, WordPress, JIRA, GitHub, Bitbucket, Gitlab, Jenkins, Slack, Scrum, UI Design, Axure, Mac OS.

Visa

Experience

Freelance VueJS Developer, WIKA via diva-e; München

Dec 2022 - Jun 2023

Changing the existing front end of the WIKA web app to VueJS.

WIKA - The world's leading manufacturer of pressure and temperature measuring technology, headquartered in Klingenberg am Main, Germany.

Skills: VueJS, JavaScript, TypeScript, Storybook, Swagger, Postman, Charles Proxy, AWS, SASS, CSS Modules, HTML, Visual Studio Code, Next.JS, Git, Figma, JIRA, GitLab, Scrum.

Freelance React Native Developer, DocMorris; Berlin

Aug 2022 - Oct 2022

DocMorris - Online Pharmacy, headquartered in Berlin.

Updating both the DocMorris and Medpex iOS and Android Apps.

Skills: React Native, GraphQL, JavaScript, TypeScript, CSS, HTML, Material UI, Jest.js, LottieFile Animations, Visual Studio Code, Figma, JIRA, Bitbucket, Slack, Scrum.

Freelance React Front End Developer, Kyriba via Infosys; Paris

May 2021 - June 2022

Kyriba is the global leader in cloud treasury and finance solutions.

Adding a React UI to a pre-existing Java app.

This contract was extended.

Skills: React, Highcharts, JavaScript, CSS, Material UI, Styled Components, HTML, Visual Studio Code, Grails, Keycloak, Figma, Docker, Postman, Swagger, Oracle SQL Developer, Jenkins, Linux, AWS, Jira, Git, Bitbucket, Kanban.

Freelance React Native Developer, Nuri; Berlin

Jan 2021 - May 2021

Nuri is a blockchain banking service, headquartered in Berlin.

Implementing a full app redesign and rebranding project, Bitwala => Nuri.

This contract was extended.

Skills: React Native, GraphQL, JavaScript, TypeScript, CSS, HTML, Material UI, Jest.js, OpenCart, Next.JS, Visual Studio Code, Figma, JIRA, GitHub, Slack, Scrum.

Freelance React Native/React Front End Developer, Rakuten Kobo; Darmstadt

Apr 2020 - Dec 2020

Developing new features for the **tolino App**, the main features being **CarPlay** and **Chromecast**, using **React Native**. In addition and in parallel to the above, I also did React development for the **tolino WebApp**. This role was 100% remote.

Skills: React, React Native, Redux, JavaScript, TypeScript, CSS, HTML, Jest.js, Visual Studio Code, Webpack, Figma, JIRA, GitLab, Bitbucket, Slack, Scrum.

Freelance React Front End Developer, COREngineering GmbH; Frankfurt am Main

Jun 2019 - Dec 2019

Developing the **Front End** for two financial applications using **React**. This role was 60% remote.

Skills: React, Redux, CSS, Material UI, SCSS, HTML5, Jest.js, Visual Studio Code, Webpack, JIRA, GitHub, Gatsby, Kubernetes, Azure DevOps, Slack, Scrum.

Freelance React UI Developer/Designer, Medulife GmbH; Frankfurt am Main

Jan 2019-Apr 2019

Solely responsible for **redesigning and developing (components)** for the new look and feel and visual design, for the various Medulife portal offerings using React.

Skills: CSS, HTML5, React, JavaScript, D3.js, Sketch, Adobe Creative Cloud, IntelliJ IDEA, Webpack, GitHub.

Freelance Front End Developer, Fidelity; Frankfurt am Main – Jun 2018-Dec 2018

Responsible for fixing visual issues relating to the front end of the Fidelity websites.

Skills: Backbone.js, React, JavaScript, CSS, SASS, HTML5, Foundation, Git, Webpack, Agile.

Freelance UI Developer, Deutsche Bank; Frankfurt am Main – Jan 2017-May 2018

Solely responsible for **implementing** the **look and feel** and **visual design** for a pivotal **Wealth Management application**, built using **React** and **Redux**, which has to be supported in IE11 and iPad Pro.

Worked closely with the UX Team and attended regular and numerous meetings with the business to achieve this.

As part of the development process I stripped out the global **LESS** and applied local solutions such as **CSS Modules** and **Styled Components**. The general role I played here could be applied to any tech stack.

Skills: HTML5, CSS3, LESS, Material UI, CSS Modules, Styled Components, JavaScript, ES6/ES2015, React, WebStorm, Photoshop CC, Illustrator, Git, Bitbucket, Yarn, Webpack, JIRA, Agile.

Skills: Photoshop CC, Sublime Text, HTML5, CSS3, SASS, JavaScript, GreenSock and Sizmek MDX.

Freelance Front End Developer, F&F; London – Sep 2013-Aug 2015

F&F was an online shop specialising in the latest women's, kids and men's **fashion**

- Developing the front-end using Sublime Text / Adobe Creative Cloud and then implementing using Venda (cloud-based (SaaS) commerce solution) and Oracle Endeca.
- Developing responsive features using Bootstrap.
- Writing my own jQuery.
- Developing promotional banners using Ampliance.

Freelance Visual Designer, LexisNexis; London – Jul 2012-Aug 2013

Although it states that I was a Visual Designer it was very much a split between design and development. The project was based around the redevelopment of the LexisAdvance Quicklaw website. My role also involved producing wireframes using Axure.

- Wireframing the content layout for the LexisAdvance Quicklaw website using Axure.
- Designing the content layout for the LexisAdvance Quicklaw website using Photoshop.
- Hand-coding CSS3 and HTML5.

Front End Developer (Permanent), Stylistpick; London – Jul 2011-Jul 2012

Stylistpick at the time I worked there was a start-up based around the idea of hand picked **fashion** for musthave brands and trends.

- Developing the front-end using Adobe CS and then implementing using Magento.
- Developing jQuery elements within the design to enhance the front-end user experience.
- Developing the website blogs using **WordPress 3.2.1**.
- Designing/developing flash banners for various campaigns using Adobe Flash CS5 Professional.
- Designing/developing animated gifs for various campaigns using Adobe Photoshop CS5.
- Designing/developing emails for various campaigns.
- SVN using Terminal.

Jan 2000 – Jul 2011

A mixture of both Front-End Development and Visual Design (HTML/CSS/JS), permanent / contract roles. **For more information please go to www.inoweb.com**
