Summary

Architect | Interior Designer | Full Stack Blockchain Development & Game Design Student | Sydney, Australia

Hi! I'm Jorge Ivan Cardona Urrego, an architect and interior designer hailing from Colombia, currently residing in Sydney, Australia. My passion for design led me to graduate as an architect and interior designer. Now, I'm on an exciting journey, pursuing a Master's in Full Stack Blockchain Development and honing my skills in game design.

I thrive on creativity and innovation, whether it's conceptualizing stunning interiors or crafting immersive digital experiences. As a freelancer, I've had the privilege of working on diverse design projects. I also wear the hat of an AI artist, utilizing technologies like Chat GPT and Midjourney to push the boundaries of creativity.

I'm the founder of Arkane Plus Studio, where we specialize in creating digital content for aspiring architects, artists, and freelancers who share a passion for conceptual design, art, interior design, and architecture. Let's connect and explore the boundless possibilities of design and technology together!

Experience
Founder & Freelance Architect-Interior Designer
Arkane Plus Studio | Colombia & Sydney, Australia | Dates of Freelance Work

Established and managed Arkane Plus Studio, a creative hub dedicated to crafting digital content for architecture students, artists, and freelancers interested in conceptual design, art, and interior design.
Collaborated with clients to transform concepts into visual realities, enhancing their creative journeys.
Worked as an AI artist, leveraging Chat GPT and Midjourney to explore the fusion of technology and art.

Experience

Architectural Designer | Interior Designer | AI Artist

Arkane plus studio

Apr 2019 - Present (5 years 2 months)
In my role as a freelancer at Arkane Plus Studio, I had a multifaceted role that contributed to the studio's success in bridging creativity, architecture, and education:

Digital and Graphic Resources: I crafted tailored digital assets for architects, interior designers, and students, enhancing project presentations and educational content.

Draftsman Services: Collaborating closely with architects, I used CAD software to create precise architectural plans and elevations, ensuring projects met high standards of accuracy.

Content Creation: I generated diverse content, from articles to educational materials, keeping the audience informed about industry trends.

Client Collaboration: Effective communication with architects and designers ensured I exceeded their expectations in delivering digital resources.

Educational Support: I created educational materials, simplifying complex architectural concepts and aiding students in their learning.

Innovative Design and AI Integration: I incorporated cutting-edge design and AI tools to optimize project quality and efficiency.

My achievements at Arkane Plus Studio upheld its reputation for excellence in architectural design and education, helping professionals and students visualize ideas effectively. My experience allowed me to merge design with education, leaving me excited to continue pushing creative and technological boundaries in the field.

Architect
Realidad Colombia
Jun 2018 - Nov 2018 (6 months)
During my architectural internship, I worked in a unique firm that values long-term stability and collaboration. I played a key role in:

Construction Documentation: I created comprehensive project documents, ensuring precision and quality in architectural plans.

Revit Detailing: Proficient in Revit, I produced precise and high-quality architectural details crucial for project integrity.

Adaptive Software Use: I used various design software as needed, tailoring our approach to meet project-specific requirements.

Project Coordination: I collaborated with consultants and clients, aligning project objectives and strategies effectively.

Meeting Deadlines: In a transportation-focused team, I ensured projects adhered to timelines, facilitating their successful and timely delivery.

My internship not only enhanced my skills but also exposed me to a practice that prioritizes well-being, collaboration, and a positive work culture, emphasizing long-term growth and stability in architecture.
