Mohammad Hijazi, Web Developer

mohammad.hijazi.2000@gmail.com

PROFILE

Highly skilled and motivated Front-End Developer with experience in creating mobile responsive and scalable components using React, Next.js, and Typescript. Proficient in troubleshooting issues, configuring operations and analytics, and implementing design changes. Strong collaboration skills demonstrated by working closely with diverse client bases and design teams to implement various technologies and programs. Developed and maintained reusable component libraries, participated in code reviews, and contributed to the establishment of development best practices and standards.

Key Skills:

- Programming Languages: React, Redux, Nextjs, Typescript, JavaScript
- Testing: Jest
- Styling: Tailwind, Sass
- APIs: GraphQL
- Version Control: Git
- Agile methodologies

EMPLOYMENT HISTORY

Dec 2022 — Present

Frontend Developer, Brandy Creativity & Technology

- Created mobile responsive and scalable components in Nextjs and Typescript.
- Troubleshoot issues and concerns, configure operation and analytic, plugins, and design changes as needed.
- Worked directly with a diverse client base to understand and implement multiple technologies and programs.
- Developed and maintained a reusable component library for the company's web applications.
- Collaborated with the design team to implement responsive designs and improve the overall user experience.
- Participated in code reviews and contributed to the company's development best practices and standards.
- Successfully delivered projects on time and within budget, demonstrating strong project management skills and the ability to prioritize tasks effectively.

Feb 2022 — Dec 2022

Frontend Developer, Tanios Agency

- Design, develop, test and deploy design features in a timely manner.
- Continually work to ensure the user experience determines design choices.
- Work to achieve a balance between functional and aesthetic designs.
- Apply engineering best practices.
- Work to solve complex challenges with the utilization of modern web application development processes and standard methodologies.
- Worked with cross-functional teams, including backend developers and project managers, to coordinate feature development, resolve technical issues, and meet project milestones.
- Actively participated in code reviews and provided constructive feedback to team members, promoting code quality, maintainability, and adherence to coding standards.
- Contributed to the development and maintenance of a design system or component library, ensuring consistency and reusability across multiple projects.

Jun 2022 — Present

Frontend Developer, Freelance Work

- Develop mobile responsive and scalable components using React, Next.js, and Typescript.
- Collaborate with clients to understand their requirements and implement various technologies and programs.
- Collaborate with content management systems (CMS) and effectively integrate them into front-end applications to manage and deliver dynamic content.
- Troubleshoot and resolve issues related to web applications and suggest appropriate solutions.
- Configure operation and analytics plugins to optimize performance and user experience.
- Implement design changes as per client specifications and ensure consistency across different platforms.
- Collaborate with backend developers and work with APIs to integrate data and functionality into front-end applications.
