Highly motivated and experienced Data Scientist with a track record of success in leveraging data to solve real-world problems. Passionate about helping organizations make better informed decisions through data.

### Key Strengths

- **Resilient and result-oriented:** Proven ability to work under pressure and achieve results.
- **Technical Skills:** Power BI, Microsoft Excel, SPSS, Infogram, Tableau
- **Programming language:** Python
- **Adaptability:** Widely travelled, adapt quickly to new environments and sensitive to cultural differences.
- **Strong Analytical skills:** Both my BSc degree and Current Msc programme, and involvement in consulting engagements, have honed my analytical skills.
- **Strong ethical values:** My time at the Lagos Business School has given me a strong belief in living and acting ethically.

### Professional Experience

#### **Programme Coordinator - Lagos Business School**

**April 2023 - Present**

- Responsible for the smooth running of the Business Innovation Accelerator programme and ensured the programme content met the needs of the participants and exceeded their expectations.
- Maintained a central communication platform to keep everyone informed of activities.
- Managed multiple tasks simultaneously and met deadlines effectively in a fast-paced environment.

#### **Data Analyst - Freelance**

**March 2022 - Dec 2022**

- Designed and developed dozens of interactive dashboards for clients using Microsoft Power BI and Excel.
- Performed exploratory data analysis with Excel and SPSS, and created 20+ infographics using Infogram and Canva.
- Built Models using Logistic Regression to analyze KPI's behind the determination of price of a room for some new hosts and predicted about 29% profit.

- Analyzed dataset in MS Excel and collaborated with Automation, Finance, Accounting, and IT Operations to gather and prioritize different business requirements.

**Quantum Analytics - Data Analytics Intern**

**Dec 2021 - March 2022**

- Learned how to use various Statistical tools like Excel, powerBi and PostgreSQL.
- Evaluated sample data sets using outlier analysis, boxplots, V-lookup, Chi-square, Normal and T-Distribution.

**IT Intern - Attainables Entertainment**

**April 2021 - June 2021**

**Education**

- Foundation degree, Amity University, Dubai 2016
- Bsc. Computer Science, Nnamdi Azikiwe University, Awka 2021
- MSc. Financial Engineering, World Quant University, USA Ongoing

**Badges and Certifications**

- IBM Python for Data Science, issued by Cognitive Class 2023
- Intro to Data Analysis, issued by Section 2023
- Intro to AI Prompt writing, issued by Section 2023
- Positioning, issued by Section 2024
- AI for Strategic Decision making, issued by Section 2024
