08/2021 to Current **Freelance (Social Media Marketing)**

Local Vendors – Roorkee

Provide social media marketing services to the client to enhance client's business profiles

EDUCATION

06/2023

B.tech: Electronics And Communications Engineering

Roorkee College Of Engineering - Roorkee, Uttarakhand

02/2019

High School Diploma

Govindrao Patil Highschool - Chikhali

SKILLS

- Figma proficiency
- Adobe XD
- Framer
- UX Design
- User Interface (UI) design
- Design thinking
- Responsive design
- Interaction design
- Prototyping & Wireframing
- Adobe Photoshop
- Chatgpt Prompting

CERTIFICATIONS

- **Foundation of UX Design** - Google
- **Figma** - Internshala
- **Getting Started with UX** - Internshala
- **Getting Started into UI/UX** - Internshala

- **Prototype & Motion** - Internshala
- **Adobe XD** - Internshala
- **UI/UX Design** - Internshala
- **Learn to use AI** - Brightso

PROJECTS

- **Mental Health Care Web Design with Case Study**

(Implemented the application's user interface and user experience for “Nextion”, which is a mental health care website, on Figma. It presupposed the detailed case-study concentrating on human-oriented approaches to design, web accessibility, and interface's ease, which would help users in maintaining their psychological well-being.) (<https://www.behance.net/gallery/210250699/Mental-Health-Care-Web-Design-With-Case-Study>)

- **Apple Wallet Redesign with case study**

(A complete redesign of Apple Wallet application based on its further evolution and making more user-friendly the application's interface. Based on the case study, I have presented a complete and then used Figma to address the design issues within the provided application by implementing specific design issues aimed at minimizing friction.) (<https://www.behance.net/gallery/210246717/Apple-Wallet-Redesign>)

- **Ramble Travel App Design with Case Study**

(Created ideologically and conceptually the idea of the mobile application “Ramble” which is an application for travel pay special attention to the convenience of a trip while booking a trip. Conducted a detailed case study that allow defining user needs and avoiding the app's issues, providing functional design created in Figma.) - **Mental Health Prediction Of Student using Artificial Intelligence (Research Paper ICCESD)**

The purpose of this article is to determine whether the use of machine learning, using supervised/unsupervised-data prediction algorithms to predict mental health through the use of artificial intelligence (AI) can be done or not . Based on the data of students and analyzing factors like academic success, social support, and physical activity it described and forecasted students' mental health.
